PROFILE

I am a Project Manager with almost 1 years of experience. I worked independently, as well as collaborating with a team in a software house company and, during these 1 years, have worked on 5+ projects on a national scale with domestic and foreign collaborations. Additionally, I have experience working as a Software Quality Assurance and Front-End Developer. These various experiences equip me with the latest knowledge and skills to optimally handle projects and deliver the best results under any conditions. I am committed to continuous learning and keeping up with technology to provide cutting-edge solutions.
